

Circles and Stars

Roll the die and draw that many circles in the box.

Roll the die again and put that many stars in each circle.

Then write the number sentence 3 ways.

	$3 \text{ groups of } 4 = 12$ $4 + 4 + 4 = 12$ $3 \times 4 = 12$
--	--

Roll the die and draw that many circles in the box.

Roll the die again and put that many stars in each circle.

Then write the number sentence 3 ways.

--	--

Roll the die and draw that many circles in the box.

Roll the die again and put that many stars in each circle.

Then write the number sentence 3 ways.

--	--

Roll the die and draw that many circles in the box.

Roll the die again and put that many stars in each circle.

Then write the number sentence 3 ways.
