

# Stir up a Spooky Story!

Choose a story starter from the pot.  
Take one of the story papers and the  
starter to your desk.

Begin by copying the starter onto your  
paper and then finish writing the  
story.

Use an editing phone to read the story  
back to yourself to see if it makes  
sense.

Make any needed corrections to your  
story and put it in your center  
folder.
